Colorants for Wood Coatings
### Colorants

Chromaflo Technologies has a wide variety of choices to color most Wood Coatings systems. These colorant systems have a long history of providing the Wood Coatings formulator with the tools needed to meet the needs of the Wood Coatings consumer. Our products are designed to provide rich, deep color, accentuating the grain of the wood. Whether the application requires transparency or opacity, our colorants have been formulated to match the chemistry of your choice.

**Color Systems**

Chromaflo Technologies has develop a variety of color systems that aid the formulator in developing a color palette for their Wood Coatings customers. These color systems are supporting by merchandizing tools as well as color formulations. Chromaflo Technologies is the leader in developing color systems for the Industrial and Architectural markets.

Our Systems include:

- **COLORTREND®** Semi-transparent Wood Stains (48 colors)
- **UCD®** Expanded Color Options (250 colors)
- **Industrial Color System** (180 colors)
- **Portfolio of Color®** (2760 colors)
- **AMBIANCE®** (1026 colors)
- **RAL colors**
